Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-36 are pending in this Office Action.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I is directed to embodiment of Figure. 9 including claims 1-6, 13-18, 25-30 that specify a method of querying number-ranges searches, comprising: receiving a number-range search query having one or more number ranges, wherein at least one number range includes at least one boundary number; generating an expression of one or more numerical index based on the boundary number, wherein at least one numerical index term includes information associated with an indexed number; identifying one or more documents containing indexed numbers that satisfy the expression.

Species II is directed to embodiment of Figure.8 including claims 7-12, 19-24, 31-36 that specify the alternate embodiment of a method of indexing number ranges, comprising: receiving a plurality of documents containing numbers; for each number in at least a subset of the number in the plurality of documents...

Applicant is required under 135 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Attorney, Williams, Gary on 3/30/2006 to request an oral election to the above restriction requirement, but did not result in an election being made.
